## 3. Frontend Application

### 3.1 Deployment Details

Field	Value
URL	<a href="https://hunch-oracle-app.vercel.app">https://hunch-oracle-app.vercel.app</a>

Version	v2.3.2
Platform	Vercel
Framework	React + Vite + TypeScript

### 3.2 Features

- **Network Switcher:** Toggle between mainnet and testnet
- **Market Display:** Shows only V6.3 markets (filtered by ID range)
- **Wallet Connection:** TonConnect integration
- **Supabase Cache:** Instant market loading from database

### 3.3 Key Files

File	Purpose
src/hooks/useMarketsCache.ts	Market fetching with V6.3 filtering
src/components/Header.tsx	App header with version and network switcher
src/config/supabase.ts	Supabase client configuration
src/config/networks.ts	Network configuration

## 4. Database Integration

### 4.1 Supabase Configuration

Field	Value
Project URL	<a href="https://sjxzalzokkxrxdwwiwd.supabase.co">https://sjxzalzokkxrxdwwiwd.supabase.co</a>
Table	markets
Access	Row Level Security enabled

### 4.2 Market ID Scheme

Network	V6.3 ID Range	Filter Applied
Testnet	101-104	ID 101-999
Mainnet	201-203	ID 201-999

Note: V6.2 markets with large IDs (1769380451+) are excluded by the upper bound filter.

## 5. Security Audit

### 5.1 Smart Contract Security

Check	Status
Market creation requires HNCH fee	PASS
Resolution deadlines immutable after deployment	PASS
Only authorized wallets can propose outcomes	PASS

Challenge mechanism with bond escalation	PASS
Veto guard protection enabled	PASS

## 5.2 Frontend Security

Check	Status
No sensitive keys in client code	PASS
Supabase anon key (read-only) used for client	PASS
Service role key in environment variables only	PASS
TonConnect secure wallet integration	PASS

## 5.3 API Security

Check	Status
Supabase Row Level Security enabled	PASS
Insert operations require service role	PASS
Read operations use anon key	PASS

## 6. Tournament Timeline

Event	Date	Unix Timestamp
Tournament Start	February 7, 2026	1738886400
Group Stage Ends	February 20, 2026	1771545600
Market #201 Resolution	February 21, 2026	1771632000
Semi-Final 2	March 5, 2026	1772668800
Market #202 Resolution	March 6, 2026	1772755200
Final	March 8, 2026	1772928000
Reserve Day	March 9, 2026	1773014400
Market #203 Resolution	March 10, 2026	1773100800

## 7. Market Maker Integration

### 7.1 Trading Op Codes

Operation	Op Code	Description
Buy YES	0x00000001	Purchase YES position
Buy NO	0x00000002	Purchase NO position
Propose Answer	0x00000003	Submit resolution proposal
Challenge	0x00000004	Challenge proposed outcome

Settle	0x00000005	Finalize market resolution
Redeem	0x00000006	Claim winnings

## 7.2 API Endpoints

### Get All Mainnet Markets:

## 9. Known Issues & Recommendations

### 9.1 Technical Debt

Issue	Priority	Recommendation
Hardcoded ID ranges for filtering	Medium	Implement version field in database
V6.2 markets still in Supabase	Low	Clean up old records
Large bundle size (1.1 MB)	Medium	Implement code splitting

### 9.2 Future Enhancements

Enhancement	Priority	Effort
Real-time market updates via Supabase	High	Medium

Trading interface (buy YES/NO)	High	High
Resolution proposal UI	High	Medium
Mobile responsiveness	Medium	Medium
Multi-language support	Low	High

---

## 10. Testing Summary

### 10.1 Verified Functionality

Test Case	Status
Mainnet displays exactly 3 V6.3 markets	PASS
Testnet displays exactly 4 V6.3 markets	PASS
Network switcher functions correctly	PASS
Markets load from Supabase cache	PASS
Version badge displays v2.3.2	PASS
TonConnect wallet connection	PASS

### 10.2 Pending Tests

Test Case	Status
End-to-end trading flow	PENDING
Market resolution flow	PENDING
Mobile device compatibility	PENDING
Load testing with high traffic	PENDING

---

## 11. Deployment Checklist

Item	Status
Smart contracts deployed to mainnet	COMPLETE
Smart contracts deployed to testnet	COMPLETE
Markets inserted into Supabase	COMPLETE
Frontend deployed to Vercel	COMPLETE
Documentation created	COMPLETE
Market maker report prepared	COMPLETE
Release candidate tagged	COMPLETE

---

## 12. Sign-Off

This audit report confirms that the HUNCH Oracle V6.3 deployment for ICC Men's T20 World Cup 2026 prediction markets has been completed successfully. All mainnet and testnet contracts are operational, the frontend is live, and documentation is in place for future development and market maker integration.
